In the more than 15 years that Encore® Azaleas have been tested in gardens, trials, and plant nurseries across the Southeast, they have proven to be a low-maintenance solution for multi-season landscape color. University studies and extensive plantings throughout the Midwest and Northeast also show that many varieties are cold hardy through USDA zone 6.

22 VARIETIES PROVEN COLD HARDY TO ZONE 6B

In addition to the varieties cold hardy to 6A (listed at left), 9 additional varieties consistently exhibited solid cold hardiness in zone 6B:

Autumn Bravo™
Autumn Empress™
