

WATERING ENCORE® AZALEAS

Your favorite re-blooming azalea

ENCORE
AZALEA®

— More Blooms, More Often —

encoreazalea.com

2 KEY TIMES TO WATER:

DURING THE HOT SUMMER MONTHS

DURING THEIR FIRST YEAR
IN THE GROUND

CARE: This first year is very important because
TIP: your Encore's root system is developing!

THOROUGHLY SOAK THE ENTIRE
ROOT BALL EVERY OTHER DAY,
ALLOWING THE MOISTURE TO
SEEP 8-10 INCHES DEEP

AFTER THE FIRST YEAR WHEN THE ROOTS ARE FULLY
ESTABLISHED, THEY WON'T NEED AS MUCH WATER

GOOD DRAINAGE IS IMPORTANT FOR ENCORE® AZALEAS!

IF THE ROOTS GET TOO MUCH WATER, ROOT ROT CAN SET IN,
& THE MOISTURE WON'T BE DELIVERED TO THE UPPER PLANT

**MONITOR YOUR WATERINGS CAREFULLY TO FIND THE
RIGHT BALANCE; DON'T DEPEND ON SCHEDULED WATERING**

CARE TIP: Damp or dry weather will dictate how much water your Encores need
